Circulation

Lending books to patrons and receiving them back

OPAC

Public interface for users

Reports

Reports to the management

Administration

Easy to use interface for the management

Our client library software support is second to no one; We pride ourselves in providing top quality and professional support to cover all types of libraries and librarians.

ACQUISITION

Acquisition Module facilitates automating the process of ordering, receipt, payment and budget control. The module enables library staff to handle all major functions related to acquisition, such as Suggestions management; Order processing, cancellation and reminders; Receipt, Payment and budgetary control; Auto accessioning;

CATALOGUE

Catalogue module is used for retrospective conversion of library resources. It also facilitates library staff to process the newly acquired library resources. The salient features of catalogue module are: Allows catalogue to create their own templates for data entry for different types of library resources; Allows user-generated customized reports; Facilitates authority database of person name, corporate body, subject headings and series name; Supports master database of publishers; Facilitates generation of spine label, barcode & book card; and Supports global search and replace functionalities.

ON-LINE PUBLIC ACCESS CATALOGUE (OPAC)

One of the major attractions of LMS is its robust On-line Public Access Catalogue (OPAC). The OPAC has simple and advanced search facility with minimum information of documents available in database by author, title, publisher, publication year, subject headings, keywords, class number, series name, accession number or combination of any of two or more information. OPAC offers the following functionalities:

- SIMPLE SEARCH
- BOOLEAN SEARCH
- ADVANCED BOOLEAN SEARCH
- DISPLAYING AND DOWNLOADING OF RECORDS IN MS EXCEL, PDF
- WEB-BASED MEMBER INTERFACE THROUGH OPAC
- SEARCH SUPPORT FOR THE ITEMS THAT ARE IN THE ACQUISITION PROCESS IN THE LIBRARY
